

Ali Ismail

Almere, Netherlands · +31 6 45 33 2055 · eng.ali.cs@gmail.com · Nationality: Dutch

Career Summary

Engineering Manager with 15+ years of experience across payments, developer platforms, and cloud infrastructure. Currently at **Uber**, leading the **Payment Checkout Platform** and **Money SDK**. Previously at **Amazon Web Services**, led **FinTech** and **Developer Platform** teams delivering compliant data solutions and developer productivity products including Cloud9 and CodeCatalyst IDEs. At **Booking.com**, owned **Payment Billing** and **Core Infrastructure** teams, delivering scalable billing systems and developer tooling supporting hundreds of services globally. Proven track record of building and scaling high-performing teams across complex, distributed, and regulated environments.

Work Experience

Uber — Netherlands | Jan 2025 – Present

Engineering Manager II — Payment Experience

- Lead 13 direct reports owning the **core checkout orchestration layer** processing payments across all Uber Lines of Business (Rides, Eats, Delivery, U4B) — routing every charge to Risk, Compliance, and Ledger across Web, Native iOS, and Android.
- Lead a team of 6 architecting a **ground-up rewrite of Uber's native mobile payments framework**, replacing a decade-old, million-line legacy system.

Engineering Manager II — Developer Platform

- Led platform teams in standardizing Uber's **product development lifecycle**, driving end-to-end alignment across engineering planning, launch governance, and post-production reliability.
- Owned domain strategy for **feature liveness and operational signal pipelines**, establishing quality, observability, and operational readiness standards to ensure reliable global launches across all engineering teams.

Amazon — Netherlands | Jan 2022 – Dec 2024

Software Development Manager — Amazon Web Services

- Managed core developer productivity products: [AWS Cloud9](#) / [Kiro](#), [CodeCatalyst IDE](#) widgets, and CloudEditor used across all AWS Consoles.
- Led initiatives integrating **AI-assisted development capabilities** into the AWS developer lifecycle.
- Drove improvements in developer experience, reliability, and extensibility for platforms used by millions of developers worldwide.

Software Development Manager — FinTech

- Led engineering teams building **financial data and compliance platforms** supporting global tax and accounting regulations.
- Owned end-to-end data pipelines for Amazon's internal **financial reporting and compliance** (including [SAF-T](#)), establishing KPIs for accuracy, completeness, and latency across large-scale data warehouses.
- Partnered with Finance, Legal, and Compliance stakeholders to deliver **auditable, high-correctness systems** operating at global scale.

Booking.com — Netherlands | Apr 2018 – Dec 2021

Engineering Manager — Payment Billing Platform

- Led the Payments Billing team building a **product-agnostic billing engine** supporting accommodation, attractions, and other verticals.
- Handled multi-currency, cross-border invoicing across **~203 countries/territories**, targeting **99.99% financial correctness**.
- Partnered with Product and Finance to ensure billing accuracy, regulatory compliance, and scalability across global markets.

Engineering Manager (Promoted from Senior Developer) — Core Infrastructure Platform

- Owned core infrastructure platform enabling development and deployment of **800+ containerized microservices** across a hybrid cloud ecosystem integrated with AWS.
- Led organization-wide engineering initiatives, including an enterprise Maven-to-Bazel migration, centralized CI/CD pipelines, and SonarQube adoption across **~1,000 projects**.
- Accelerated developer productivity and autonomy by standardizing Java infrastructure libraries, Kubernetes templates, and Bazel-based monorepo workflows.

CoolGames — Netherlands | Apr 2017 – Mar 2018

Senior Java Developer: Developed backend frameworks and microservices for scalable gaming platforms. *Tech stack:* Java 8, Play Framework, Akka, AWS, Cassandra, MySQL, Redis, Elasticsearch, ActiveMQ.

Ejada — Saudi Arabia | Dec 2009 – Mar 2017

Software Developer and Team Lead: Led development of enterprise-scale systems including airline reservation platforms and government workflow systems.

Education

Bachelor of Science in Computer Science and Systems Engineering | 2003 – 2008

Faculty of Engineering, Alexandria University, Egypt — Graduated with Honours (80%)
